Chapter quizzes may be taken only once and are timed. If the student goes over the time on two quizzes by more than 60 seconds, 5 points will be deducted from the quiz/exam grade. If a student has issues with a quiz or final exam, the instructor must be contacted before the quiz or exam is due. Quizzes and/or the final exam will not be reset unless the instructor is contacted prior to the due date. If it is necessary for the instructor to re-set more than two quizzes, the student may be required to take the quizzes at the TCL testing center. Students may be required to take the Final Exam in the TCL testing center if re-setting is required.

For all online courses, students must complete an assignment designated by the instructor during the first week of classes. The instructor will drop the student from the course if the initial assignment is not completed.

Instructors will withdraw students from class when 90% attendance is not maintained. Attendance in an online course is defined by regular course access and by completion of assignments as required by the instructor. Each student will be expected to access the web class at least twice a week. Additional access is encouraged and may be necessary for successful completion of classes.

Failure to log in and complete assignments will result in the student being withdrawn from the course. The instructor will assign a grade of “W,” “WP,” or “WF” based upon the student’s academic standing as the last date of attendance, which is the last login. Students are responsible for any financial matters associated with an administrative withdrawal.

See course website for additional expectations for student fulfillment of requirements.

Grading Methodology. The final grade must be 75.000% or 750 points or more in order to pass the course. The final grade in Health Sciences courses must be 75.000 or more in order to pass the course. Grades will not be “rounded” up to the higher number. A final grade of less than 75.000 is not passing in any Health Sciences course.

Students absent from an examination or presentation will receive a “0” grade for the examination unless other arrangements are made with the individual instructor prior to the examination or presentation day or on the examination or presentation day before the test/presentation is scheduled to be given. It is the responsibility of the student to contact the appropriate instructor to arrange to make up the examination. Arrangements may be completed by telephone. If the instructor is not available, a message should be left on the instructor’s voice mail AND with another member of the faculty or administrative assistant. The instructor will decide the time and method of make-up examinations on an individual basis. Messages sent by other students are unacceptable. The student is responsible for notifying the instructor of the reason for the absence. Grades are posted on Blackboard within one week of administration of tests and examinations.
