HIS 201 Core Curriculum Competencies

All course approved for the general education core curriculum help students develop critical thinking and/or communication skills.

This course develops written communications skills through written exams that require students to process and organize baseline material into exam essay questions and paragraph answers. The student must be able to do this by properly and effectively developing sentences and paragraphs to answer specific study guide questions for the exam. Students also develop verbal communication skills by participating in class discussion groups or comparable arrangements to answer questions posed to them by the instructor. They work together in groups to develop answers to these discussion questions and present orally to the class as a whole.

This course develops critical thinking skills for students through a critical book review/research paper and other writing assignments in which they must answer a set of questions/criteria posed to them and create responses combining their
Personal opinions, general explanation of these opinions in their own words, and specific book/source information to explain their general explanations. Students will develop a main body of their review/research paper using the above or similar skills in the process of completing this specific writing assignment.
