MTH 122
Principles of Massage II
Spring 2014

Course Description
MTH 122 Principles of Massage II
Lec. 3 Lab. 3 Cr. 4
This course introduces basic assessment skills and applications of therapeutic techniques to muscles, tendons, ligaments, and other structures.
Prerequisites: MTH 120, MTH 121, BIO 112.
Corequisites: BIO 238, MTH 123, MTH 126

Course Focus
This course focuses on applications of therapeutic techniques to muscles, tendons, ligaments, and other structures.

Text and References

Course Goals
The following list of course goals will be addressed in the course. These goals are directly related to the performance objectives. (*designates a CRUCIAL goal)

1. outline sports massage history
2. identify potential sports massage clients
3. compare medical and performance care models
4. list sports massage benefits
5. list sports massage physiological effects
6. list sports massage contraindications*
7. describe DOMS causes
8. describe fitness training physiology
9. describe three key fitness components
10. categorize overtraining characteristics
11. categorize sports injury causes
12. define healing stages
13. adapt sports massage techniques
14. employ client participation techniques
15. detail pre-event sports massage guidelines
16. detail intra-event sports massage guidelines
17. detail post-event sports massage guidelines
18. discuss seigneur role and responsibilities
19. assess pre-event athlete condition
20. assess post-event athlete condition
21. identify somatotype characteristics
22. identify sport-specific applications
23. employ full body sports massage techniques
24. present sport specific report
25. develop site event skills
26. discuss facial tensegrity concepts
27. diagram anatomy trains model
28. analyze biomechanical stressors
29. analyze optimal postural alignment
30. define neuromuscular trigger point
31. discuss neuromuscular therapeutic massage goals
32. distinguish referred neuromuscular pain patterns
33. apply basic neuromuscular trigger point techniques
34. apply basic proprioceptive neuromuscular facilitation techniques
35. examine equine massage techniques
36. outline hydrotherapy and spa history
37. examine European and America spa characteristics
38. distinguish safe hydrotherapy temperature applications
39. enumerate cold temperature application physiological effects
40. enumerate hot and cold application contraindications
41. define hot and cold application hunting response
42. examine appropriate heat and cold applications
43. categorize hydrotherapy applications
44. adapt dry room spa techniques
45. enumerate hot temperature application physiological effects
46. evaluate wet room application and equipment
47. evaluate dry room application and equipment
48. review skin structures and functions
49. prepare paraffin wrap materials
50. prepare hydrating body wrap materials
51. manipulate paraffin application materials
52. manipulate dry room body wrap materials
53. observe wet room wrap demonstration
54. observe vichy shower demonstration
55. outline hot stone application history
56. explain hot and cold stone application contraindications*
57. state hot stone application local responses
58. state cold stone application local responses
59. state hot and cold stone application equipment precautions*
60. prepare hot stone massage materials
61. demonstrate safe hot stone application*
62. demonstrate safe hot stone supine table layout
63. clean hot stone massage materials
64. summarize esthetician practice scope
65. summarize spa product application methods
66. specify aromatherapy application methods
67. distinguish safe essential oil application methods
68. name essential oil application contraindications
69. name essential oil application best practices
70. calculate appropriate essential oil blend concentrations
71. classify essential oil application negative effects
72. review female reproductive system anatomy
73. review pregnancy stages
74. recognize pregnancy stage musculoskeletal changes
75. specify pregnancy stage circulatory system changes
76. specify pregnancy stage organ function changes
77. recognize pregnancy massage general effects*
78. name pregnancy massage benefits
79. explain pregnancy massage contraindications*
80. wear empathy belly pregnant physical condition simulator
81. demonstrate pregnancy massage positioning and draping
82. adapt pregnancy massage body mechanics
83. practice pregnancy massage techniques*
84. study full term infant developmental conditions
85. study premature infant developmental conditions
86. share individual pregnancy and delivery experiences
87. report infant massage benefits
88. report potential birth complications
89. practice infant massage techniques*
90. study pediatric developmental conditions
**Student Contributions**
Classes are designed to employ a variety of teaching techniques. In order to maximize learning, required readings and Web enhanced sections should be done prior to class. If a student is falling behind in clinical performance and/or academic achievement, it is imperative to seek immediate assistance from the instructor.

**Course Evaluation**
Four (4) technical evaluations (50 points each)  
Three (3) written tests (50 points each)  
Final evaluation  
Class participation and professional behaviors  
Total

**ADA STATEMENT**
The Technical College of the Lowcountry provides access, equal opportunity and reasonable accommodation in its services, programs, activities, education and employment for individuals with disabilities. To request disability accommodation, contact the counselor for students with disabilities at (843) 525-8228 during the first ten business days of the academic term.

**ATTENDANCE**
1. The College’s statement of policy indicates that students must attend ninety percent of total class hours or they will be in violation of the attendance policy.
2. Students not physically attending class during the first ten calendar days from the start of the semester must be dropped from the class for NOT ATTENDING.
3. Students taking an online/internet class must sign in and communicate with the instructor within the first ten calendar days from the start of the semester to indicate attendance in the class. Students not attending class during the first ten calendar days from the start of the semester must be dropped from the class for NOT ATTENDING.
4. Reinstatement requires the signature of the division dean.
   a. In the event it becomes necessary for a student to withdraw from the course OR if a student stops attending class, it is the student’s responsibility to initiate and complete the necessary paperwork. Withdrawing from class may have consequences associated with financial aid and time to completion.
   b. When a student exceeds the allowed absences, the student is in violation of the attendance policy. The instructor MUST withdrawal the student with a grade of “W”, “WP”, or “WF” depending on the date the student exceeded the allowed absences and the student’s progress up to the last date of attendance.
or

c. under extenuating circumstances and at the discretion of the faculty member teaching the class, allow the student to continue in the class and make-up the work. This exception must be documented at the time the allowed absences are exceeded.

d. Absences are counted from the first day of class. There are no "excused" absences. All absences are counted, regardless of the reason for the absence.

5. A student must take the final exam or be excused from the final exam in order to earn a non-withdrawal grade.

6. Students are expected to be in class on time. Arrival to class after the scheduled start time or leaving class prior to dismissal counts as a tardy. Three tardies and/or early departures are considered as one absence unless stated otherwise.

7. It is the student’s responsibility to sign the roll/verify attendance with instructor upon entering the classroom. Failure to sign the roll/verify attendance results in a recorded absence. In the event of tardiness, it is the student’s responsibility to insure that attendance is marked. The student is responsible for all material/announcements presented, whether present or absent.

8. Continuity of classroom and laboratory (which includes clinical experiences) is essential to the student’s progress in providing safe and competent patient care. Students are expected to use appropriate judgment for participating in clinical activities. To evaluate the student’s knowledge and skills, it is necessary for the student to be present for all clinical experiences.

9. If absence does occur, the designated clinical site, in addition to the Division of Health Sciences Administrative Assistant, must be notified by telephone no later than 30 minutes prior to the start of the clinical experience. The Division of Health Sciences telephone number is 843-525-8267.

A copy of TCL’s STATEMENT OF POLICY NUMBER: 3-1-307 CLASS ATTENDANCE (WITHDRAWAL) is on file in the Division Office and in the Learning Resources Center.

HAZARDOUS WEATHER
In case weather conditions are so severe that operation of the College may clearly pose a hardship on students and staff traveling to the College, notification of closing will be made through the following radio and television stations: WYKZ 98.7, WGCO 98.3, WGZO 103.1, WFXH 106.1, WWVV 106.9, WLOW 107.9, WGZR 104.9, WFXH 1130 AM, WLVH 101.1, WSOK 1230 AM, WAEV 97.3, WTOC TV, WTGS TV, WJWJ TV, and WSAV TV. Students, faculty and staff are highly encouraged to opt in to the Emergency Text Message Alert System. www.tcl.edu/textalert.asp

ACADEMIC MISCONDUCT
There is no tolerance at TCL for academic dishonesty and misconduct. The College expects all students to conduct themselves with dignity and to maintain high standards of responsible citizenship.
It is the student’s responsibility to address any questions regarding what might constitute academic misconduct to the course instructor for further clarification.

The College adheres to the Student Code for the South Carolina Technical College System. Copies of the Student Code and Grievance Procedure are provided in the TCL Student Handbook, the Division Office, and the Learning Resources Center.

Health care professionals hold the public trust. Academic misconduct by health science students calls that trust into question and academic integrity is expected.

It is a fundamental requirement that any work presented by students will be their own. Examples of academic misconduct include (but are not limited to):

1. copying the work of another student or allowing another student to copy working papers, printed output, electronic files, quizzes, tests, or assignments.
2. completing the work of another student or allowing another student to complete or contribute to working papers, printed output, electronic files, quizzes, tests, or assignments.
3. viewing another student’s computer screen during a quiz or examination.
4. talking or communicating with another student during a test.
5. violating procedures prescribed by the instructor to protect the integrity of a quiz, test, or assignment.
6. plagiarism in any form, including, but not limited to: copying/pasting from a website, textbook, previously submitted student work, or any instructor-prepared class material; obvious violation of any copyright-protected materials.
7. knowingly aiding a person involved in academic misconduct.
8. providing false information to staff and/or faculty.
9. entering an office unaccompanied by faculty or staff.
10. misuse of electronic devices.

**Grading Policy.** The final grade must be 75.000 or more in order to pass the course and progress in the program. Students absent from an examination or presentation will receive a “0” grade for the examination unless other arrangements are made with the individual instructor prior to the examination or presentation day or on the examination or presentation day before the test/presentation is scheduled to be given. It is the responsibility of the student to contact the appropriate instructor to arrange to make up the examination. Arrangements may be completed by telephone. If the instructor is not available, a message should be left on the instructor’s voice mail AND with another member of the faculty or administrative assistant. The instructor will decide the time and method of make-up examinations on an individual basis. Messages sent by other students are unacceptable. The student is responsible for notifying the instructor of the reason for the absence. Grades are posted on Blackboard within one week of administration of tests and examinations.
