**Apprenticeship**
One of the most difficult challenges that companies face today is the lack of a highly skilled and professional labor pool. If your company is battling similar issues why not consider Apprenticeship? Growing your workforce from within can be an effective and cost efficient way to establish a pool of well qualified workers. Apprenticeship is no longer limited to traditional trades, but now it is a viable workforce development tool in a wide variety of occupations. Not only will your investment yield highly qualified employees, but your company could also benefit from a tax break! Contact us today to learn more about our Apprenticeship programs through Apprenticeship Carolina at the SC Technical College System.

**DiSC Assessment**
The DiSC Assessment is a personality assessment (not test) that provides insights into natural and adaptable behavioral styles in relation to the workplace, leadership, management, and selling. This assessment is used in top companies around the world to assist management in making smarter hiring decisions and providing better insight into their employees’ behavior. Dissect what your employees’ actions really mean and what they need in their working environment to enable them to be successful. This training includes an online assessment. Once the assessment is complete, a DiSC Certified Trainer will meet with your company representative to provide a breakdown session to interpret the results and recommend activities that will produce positive outcomes. Call us today to find out more information regarding DiSC and how it can help your company build a winning team!

**Conversational Spanish**
Today’s global business environment can prove to be challenging, especially when there is a language barrier. With over 400 million people worldwide speaking Spanish and 17% of the US population being of Hispanic descent, it is imperative for many companies to have Spanish speaking employees. Technical College of the Lowcountry can work with your company to customize a conversational Spanish class that will benefit your bottom line! We also offer the opportunity to purchase materials for individuals that prefer to self-study. Give us a call today to get started, or as they say in Spanish, dénos una llamada hoy para empezar!

**Technology and Computer Training**
We live in a world of ever changing technology which can pose a problem for companies and employees alike. With this constant evolution, it is paramount that employees be trained properly on the most up-to-date software and social media applications that are needed in their line of work. TCL can customize technology and computer training programs to suit your company’s individual needs. We can provide training at our computer lab, or we can provide on-site training at your facility of choice. Call today to discuss your individual training needs.

**Customer Service Training**
The main goal of almost all businesses is to obtain and retain customers. But the question becomes how can we do this in an efficient and compelling manner, and the answer is CUSTOMER SERVICE. Delivering exceptional customer service to external and internal customers is vital to the success of any company. Technical College of the Lowcountry offers training that will aid your employees and managers in creating a culture of superior customer service that will set you apart from your competitors. Call us today and let us help you create a new and better way of doing business!
Management and Supervisory Training  
Technical College of the Lowcountry can provide training that will help your managers and supervisors navigate successfully through this ever-changing business environment. Our consultants advise your managers and supervisors in best practices in some of the following areas: accountability, communication, conflict resolution, empowerment, motivation, professionalism, teamwork, and relationship building. Give your management team the tools to lead and succeed! Give us a call for a consultation today.

Professional Business Coaching  
Business coaching supports professionals in building a strong foundation for success. In the hectic world in which we live, it is difficult to juggle all of our work and family obligations and still meet our personal goals. By setting out a realistic action plan, our consultants will aid you in staying motivated and focused so that you can obtain your business goals. Call today, and learn how to move your career to the next level!

Leadership Training  
The Merriam-Webster Dictionary defines leadership as “the power or ability to lead other people.” In today’s turbulent business environment, it is more difficult than ever to find quality leadership within an organization. Good leaders need excellent communication and motivational skills in order to solve problems and create positive outcomes with their company. They also require the skills to solve difficult problems in a timely and effective manner. Our Consultants lead training programs that will enable your employees and/or management team to develop needed skills that will boost creativity and lead your team towards success. Call today to learn more about our Leadership Training Program.

Professional Facilitation  
There are times when an organization needs a neutral party to guide them towards a solution or an agreement. Technical College of the Lowcountry can provide your company with a Professional Facilitator to aide your team by supporting and guiding them through a tough decision making process. This process allows a company to construct attainable and sustainable goals in an unbiased and equitable manner. Contact TCL to learn more about Professional Facilitation and to obtain the outcome needed for success.
