The Technical College of the Lowcountry presents a Private Pilot Ground School course to prepare for the FAA written exam. Classes will be held at the Technical College Quick Jobs Career Skills Center located at 1085 Thunderbolt Rd., Walterboro, SC 29488. Course topics include:

**The airplane - what a pilot needs to know**
Learn about airplane systems and flight principles or airplane aerodynamics as covered in the FAA Principles of Flight question bank.

**What a private pilot needs to know about airmanship**
Learn what a private pilot needs to know to operate an aircraft safely. This includes knowledge about aircraft performance in a number of situations and about human performance.

**Aviation weather - what the private pilot needs to know**
Aviation weather is an important knowledge area for any pilot. The general principles of weather formation as well as the effects that certain weather features have on flight are covered.

**Airplane Navigation - what the private pilot needs to know**
Airplane navigation methods, such as pilotage, dead reckoning and various airplane navigation systems that the pilot needs to know about and master are covered.

**Practical Flight Training**
Tips on how to extend your ground school to practical flight training.

Cost $395.00 Students will need to purchase a book $16.95 and E6B flight computer $27.95.

Dates and Times: March 20 – May 22, 2013

Instructor: Roger D. Medlin
Wednesday evenings 6:30-9:30pm
