

Technical College of the Lowcountry Radiologic Technology Program

MISSION STATEMENT

While supporting the stated mission and goals of the college, the mission of the Radiologic Technology Program at the Technical College of the Lowcountry is to provide a comprehensive, competency-based curriculum, preparing students who will graduate with entry-level skills needed to perform quality radiologic procedures and provide the best care possible to patients.

The Technical College of the Lowcountry (TCL) Radiologic Technology Program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT). The program has a full 8-year accreditation with the next review date being June 2016. TCL is regionally accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC). Program effectiveness data will be available on the JRCERT and TCL websites. Contact information for the JRCERT is:

PROGRAM GOALS

GOAL: *Student will be competent in the clinical setting.*

Student Learning Outcomes: Student will understand radiographic procedures
Student will position patients for radiographic procedures
Student will apply radiation protection

GOAL: *Student will demonstrate effective communication skills.*

Student Learning Outcomes: Student will demonstrate oral presentation skills
Student will demonstrate written skills

GOAL: *Student will demonstrate critical thinking skills.*

Student Learning Outcomes: Student will perform non-routine procedures
Student will apply critical thinking and problem solving skills in the
the clinical setting

GOAL: *Student will demonstrate professionalism.*

Student Learning Outcomes: Student will demonstrate a professional attitude
Student will appreciate the value of professional organizations
Student will take an active role in learning

PROGRAM EFFECTIVENESS DATA

Five- year average for the national credentialing examination given by the American Registry of Radiologic Technologists (ARRT) pass rate of not less than 75% on the first attempt within 6 months of graduation.

Graduating Class Of:	TCL Pass rate on first attempt	Number of Students
2016	92.30%	12 of 13 students passed on 1 st attempt
2015	100%	13 of 13 students passed on 1 st attempt
2014	90%	9 of 10 students passed on 1 st attempt
2013	100%	7 of 7 students passed on 1 st attempt
2012	100%	9 of 9 students passed on 1 st attempt
5 year average	96.46% Student pass Rate on 1st Attempt	

The above data is based on a five-year average for the national credentialing examination given by the American Registry of Radiologic Technologists (ARRT); Pass rate of not less than 75% has been achieved on the first attempt within 6 months of graduation.

Five-year average job placement rate of not less than 75% within twelve months of graduation*

***Students not seeking employment or enrolled in further education are not included in placement percentage**

Year	TCL percent job placement	Number of Students
2016	100%	13 of 13 graduates employed within 12 months of graduation
2015	84.61%	11 of 13 graduates employed within 12 months of graduation
2014	100%	10 of 10 graduates employed within 12 months of graduation
2013	100%	7 of 7 graduates employed within 12 months of graduation
2012	100%	8 of 9 graduates employed within 12 months of graduation 1 graduate not actively seeking employment
5 year average	96.92% Job Placement Rate for TCL Graduates	

The above data is based on a five-year average job placement rate of not less than 75% within 12 months of graduation. *Students not seeking employment or enrolled in further education included in placement percentage*

Completion Rate is the measurement of the number of students who begin the program divided by the number of students who complete the program.

Year	Percent completion	Number of Students
2016	86.66%	13 of 15 completed the program
2015	81.25%	13 of 16 completed the program
2014	71.42%	10 of 14 completed the program
2013	50%	7 of 14 completed the program
2012	67.4%	9 of 14 completed the program
5-year average	70.72% Retention Rate	

Completion rate is the measurement of the number of students who begin the program divided by the number of students who complete the program. *Note: Program completion by a student can be affected by a variety of means.
