

TECHNICAL COLLEGE OF THE LOWCOUNTRY

Technical College of the Lowcountry
921 Ribaut Road
Beaufort, SC 29901

Arts & Sciences Division
Building 9, Room 102
843-525-8281

BIO 101 Biological Sciences I

Course Description

This course is a study of the scientific method, basic biochemistry, cell structure and function, cell physiology, cell reproduction and development, Mendelian genetics, population genetics, natural selection, evolution, and ecology.

Prerequisites: ENG 100, MAT 102, RDG 100.

4.0 Cr (3.0 lect/pres, 3.0 lab, 0 other)

Course Focus

The purpose of this general education core course is to enable the student to gain an appreciation and working knowledge of basic biological principles. Instruction will be equally divided between interactive lecture and hands-on lab.

Text and References

Online, Beaufort, New River Campus

OpenStax College, Biology, 2nd Edition. OpenStax College. 28 March 2019. This is a free text available at the following link: <https://openstax.org/details/books/biology-2e>

Whale Branch High School

Taylor, Martha R., et al. Campbell Biology: Concepts & Connections, 9th Edition, loose-leaf book w/Modified mastering code. Pearson, 2018. ISBN: 978-0134784427.

Stand-alone Modified mastering access code w/eBook. ISBN: 978-0134641683.

Escience[®] Lab Kit is required. Vouchers can be purchased from the TCL Bookstore and redeemed through the Escience[®] website. OR, lab kits can be ordered directly from Escience[®] via a dedicated URL provided by the instructor. All materials needed for the lab are provided in the lab kit.

Scantron Forms, Exam Gloves are available at the TCL Bookstore.

Core Curriculum Competencies

All course approved for the general education core curriculum help student develop communication skills and/or thinking.

Approved/Revised/Updated: 07/08/2019

This course develops critical thinking skills through instruction that emphasizes the understanding of biological sciences concepts from several sub-disciplines. This understanding will be demonstrated by assessments on the common final exam. The student will demonstrate the following critical thinking objectives:

- Following standard scientific method, students will interpret laboratory observations and data, and determine relevance of their findings to expected values
- Students will recognize key biological assumptions and make inferences justified by data and observations.

Course Goals

The following list of course goals will be addressed in the course. These goals are directly related to the performance objectives. (*designates a CRUCIAL goal)

1. Identify unifying Biological themes
2. List evolutionary evidence *
3. Explain Darwin's evolutionary concepts
4. Link natural selection and evolution *
5. Describe hypothesis formation
6. Define experimental variables *
7. Draw atomic structure *
8. Contrast atomic number and mass
9. Distinguish atomic and ionic structures
10. Characterize bonding types
11. Characterize four major macromolecules
12. Outline steps in hydrolysis and dehydration synthesis
13. Identify nucleotide parts
14. Identify ATP structure
15. Label protein structure
16. Explain enzyme function
17. Justify biological importance of water *
18. Describe pH biologically
19. Explain cell theory principles
20. Assign organelle functions
21. Know membrane parts
22. Analyze membrane significance
23. Connect lipid biochemistry with membrane function
24. Differentiate among membrane proteins
25. Discriminate among cell transport mechanisms *
26. Label relative solution concentrations
27. Predict solution and solute movement *
28. Paraphrase Thermodynamic laws.
29. Give kinetic and potential energy examples
30. Graph exergonic and endergonic reactions *
31. Define activation energy
32. Understand ATP role in biological reactions *
33. Consider mitochondrial and chloroplast genetic contributions
34. Define catabolism and anabolism *
35. Define oxidation and reduction
36. Describe eukaryotic glycolysis *

Approved/Revised/Updated: 07/08/2019

37. State glucose oxidation equation
38. Outline eukaryotic aerobic metabolism
39. Track energy formation in aerobic metabolism *
40. Tell anaerobic metabolism steps
41. Compare catabolic outcomes *
42. State photosynthesis equation
43. Trace photosynthetic electron movement
44. Follow photosynthesis energy
45. Contrast cyclic and noncyclical photosynthesis
46. Characterize cell cycle stages
47. List cell parts needed for mitosis
48. Identify meiotic stages
49. Trace chromosomes during meiosis
50. Scrutinize crossing over
51. Compare gene segregation and independent assortment
52. Predict evolutionary meiotic mutation consequences
53. Recount DNA discovery history
54. Model DNA replication
55. Link mutation with genetic consequences
56. Perform DNA separation
57. Model protein synthesis
58. Describe gene expression controls
59. Debate genetic engineering
60. Summarize cell communication methods
61. Tell cell signaling types

Student Contributions:

Classes are designed to employ a variety of teaching techniques. In order to maximize learning, required readings should be done prior to a unit. If a student is falling behind in lab performance or academic achievement, it is imperative to seek immediate assistance from the instructors.

Course Evaluation:

- Student progress will be evaluated through a series of tests, quizzes in-class and out of class assignments and will be detailed in the attachment to this syllabus.
- Blackboard: lecture notes, handouts, podcasts, study hints, tutor information, syllabi, and other course information is available on the course blackboard page.
- Laboratory Component: This course has a required lab component, which supplements the information presented in lecture. The lab will be independently evaluated primarily through lab practicals, in class and out of class lab assignments (such as research papers). For specific details about lab evaluations, please refer to the attachment to this syllabus.

GRADING SCALE:

90-100	=	A
80-89	=	B
70-79	=	C
60-69	=	D
Below 60	=	F

Approved/Revised/Updated: 07/08/2019

Course Schedule

The class meets for 2.5 lecture/presentation hours and 3 lab hours per week.

STATEMENT OF NON-DISCRIMINATION

The Technical College of the Lowcountry is committed to a policy of equal opportunity for all qualified applicants for admissions or employment without regard to race, gender, national origin, age, religion, marital status, veteran status, disability, or political affiliation or belief.

ADA STATEMENT

The Technical College of the Lowcountry provides access, equal opportunity and reasonable accommodation in its services, programs, activities, education and employment for individuals with disabilities. To request disability accommodation, contact the counselor for students with disabilities at (843) 525-8219 or (843) 525-8242 during the first ten business days of the academic term.

ACADEMIC MISCONDUCT

There is no tolerance at TCL for academic dishonesty and misconduct. The College expects all students to conduct themselves with dignity and to maintain high standards of responsible citizenship.

It is the student's responsibility to address any questions regarding what might constitute academic misconduct to the course instructor for further clarification.

The College adheres to the Student Code for the South Carolina Technical College System. Copies of the Student Code and Grievance Procedure are provided in the *TCL Student Handbook*, the Division Office, and the Learning Resources Center.

ATTENDANCE

The College's statement of policy indicates that students must attend ninety percent of total class hours or they will be in violation of the attendance policy.

- Students not physically attending class during the first ten calendar days from the start of the semester must be dropped from the class for NOT ATTENDING.
- Students taking an online/internet class must sign in **and** complete an assignment designated by the instructor within the first ten calendar days from the start of the semester to indicate attendance in the class. Students not attending class during the first ten calendar days from the start of the semester must be dropped from the class for NOT ATTENDING.
- Reinstatement requires the signature of the division dean.
- In the event it becomes necessary for a student to withdraw from the course **OR if a student stops attending class, it is the student's responsibility to contact the instructor via e-mail requesting to be withdrawn from the class.** Withdrawing from class may have consequences associated with financial aid and time to completion. Students are strongly encouraged to consult with Financial Aid prior to withdrawing from any class, particularly if the student is currently on a warning or probation status.
- When a student exceeds the allowed absences, the student is in violation of the attendance policy. The instructor **MUST** withdraw the student with a grade of "W", "WP", or "WF" depending on the date the student exceeded the allowed absences and the student's progress up to the last date of attendance

or

Approved/Revised/Updated: 07/08/2019

- Under extenuating circumstances and at the discretion of the faculty member teaching the class, allow the student to continue in the class and make-up the work. This exception must be documented at the time the allowed absences are exceeded.
- Absences are counted from the first day of class. There are no "excused" absences. All absences are counted, regardless of the reason for the absence.
- A student must take the final exam or be excused from the final exam in order to earn a non-withdrawal grade.

A copy of TCL's **STATEMENT OF POLICY NUMBER: 3-1-307 CLASS ATTENDANCE (WITHDRAWAL)** is on file in the Division Office and in the Learning Resources Center.

ONLINE ATTENDANCE PROCEDURE

For all online courses, students must complete an assignment designated by the instructor during the first week of classes. The instructor will drop the student from the course if the initial assignment is not completed.

Instructors will withdraw students from the class when 90% attendance is not maintained. Attendance in an online course is defined by regular course access and by timely completion of assignments as required by the instructor. Each student will be expected to access the web class at least once a week and complete 90% of assignments on time. Additional access is encouraged and may be necessary for successful completion of classes.

Failure to log in and complete assignments will result in the student being withdrawn from the course. The instructor will assign a grade of "W," "WP," or "WF" based upon the student's academic standing as the last date of attendance, which is the last login. Students are responsible for any financial matters associated with an administrative withdrawal. If a student fails to email the instructor (using the my.tcl.edu email account) requesting to be dropped from the course and has not submitted the initial assignment required during the first week of class, the instructor will assign a "Never Attended" code in the student information system (web-advisor) no later than ten calendar days after the first day of the class. Students who are dropped as a result of never attending the course are still responsible for all fees associated with the course.

HAZARDOUS WEATHER

In case weather conditions are so severe that operation of the College may clearly pose a hardship on students and staff traveling to the College, notification of closing will be made through the following radio and television stations: WYKZ 98.7, WGCO 98.3, WGZO 103.1, WFXH 106.1, WWVV 106.9, WLOW 107.9, WGZR 104.9, WFXH 1130 AM, WLVH 101.1, WSOK 1230 AM, WAEV 97.3, WTOC TV, WTGS TV, WJWJ TV, and WSAV TV. Students, faculty and staff are highly encouraged to opt in to the Emergency Text Message Alert System. <http://www.tcl.edu/current-students/text-alert>

EMERGENCY TEXT MESSAGE ALERT

Students, faculty and staff are highly encouraged to opt in to the Emergency Text Message Alert System. Participants receive immediate notification of emergency events and weather cancellations via text messaging on their cell phones. Participants can also opt in to receive non-emergency news and announcements. Go to www.tcl.edu. On the homepage, click on "emergency TextAlert at TCL" and fill out the form or go to <http://www.tcl.edu/current-students/text-alert>

GRADING METHODOLOGY

The final grade must be 70 or more (a grade "C" or better) in order to pass the course and progress to the next course. Students absent from an examination or presentation will receive a "0" grade for the examination

Approved/Revised/Updated: 07/08/2019

unless other arrangements are made with the individual instructor prior to the examination or presentation day or on the examination or presentation day before the test/presentation is scheduled to be given.

The student is responsible for notifying the instructor for the reason of the absence. It is also the responsibility of the student to contact the appropriate instructor to arrange to make up the examination. Arrangements may be completed by telephone.

If the instructor is not available, a message should be left on the instructor's voice mail AND with another member of the faculty or administrative assistant. The make-up exam will be scheduled and the instructor will decide the method of examination. Messages sent by other students are unacceptable.

SAFETY ADDENDUM

Purpose.

The purpose of this safety addendum is to provide each student with safety guidelines during an incident, emergency, or disaster at TCL. In addition, it provides students guidelines for lockdown procedures, evacuation procedures, and active shooter.

Definitions

An incident is any event, potential or actual, that may impact normal operations but has no immediate health or life threatening consideration or serious effect on the overall functional capacity of the College. An event of this nature should be reported to the Office of the Vice President for Administrative Services. Also, notify the off-site campus administrator if applicable.

An emergency is any incident, potential or actual, which may endanger life or health or which affects an entire building or buildings, and will disrupt the overall operations of the College. Outside emergency services will probably be required, as well as major efforts from campus support services. Major policy considerations and decisions will usually be required from the college administration during times of crises. An emergency should be reported immediately by directly using **911** if life or health/injury considerations exist and then to the Office of the President or Vice President for Administrative Services as quickly as possible. Also, notify the off-site campus administrator if applicable.

A disaster is any event or occurrence that has taken place and has seriously impaired or halted the operations of the College. In some cases, mass personnel casualties and severe property damage may be sustained. A coordinated effort of all campus-wide resources is required to effectively control the situation. Outside emergency services will be essential. In all cases of disaster, an Emergency Control Center will be activated, and the appropriate support and operational plans will be executed. The disaster should be immediately reported, first by calling **911** and then to the Office of the President or Vice President for Administrative Services. Also, notify the off-site campus administrator if applicable.

Types of Emergencies

- Hurricane
- Tornado
- Fire
- Biochemical or Radiation Spill
- Explosion/Bomb
- Downed Aircraft (crash which directly impacts campus operations)

Approved/Revised/Updated: 07/08/2019

- Utility Failures
- Violent or criminal behavior
- Psychological Crisis

Procedures:

Active Shooter

Run/hide/fight (<http://www.fbi.gov/about-us/cirg/active-shooter-and-mass-casualty-incidents/run-hide-fight-video>)

Building Evacuation

1. Building evacuations occur when an alarm sounds and/or upon notification by Security or the Emergency Director.
2. When the building evacuation alarm is activated during an emergency, individuals should exit according to the building evacuation plan and alert others to do the same.
3. Once outside, individuals should proceed to a clear area that is at least 500 feet away from the affected building. Streets, fire lanes, hydrant areas and walkways should be kept clear for emergency vehicles and personnel.
4. Individuals should not return to an evacuated building unless told to do so by Security or the Emergency Director.
5. Individuals should assist persons with disabilities in exiting the building. Elevators are reserved for disabled persons

Campus Evacuation

1. A uniformed Security Guard, the Emergency Director, or an Emergency Resource Team member will announce evacuation of all or part of the campus grounds.
2. All persons (students and staff) are to immediately vacate the campus, or in the case of a partial evacuation relocate to another part of the campus grounds as directed.

Lockdown

1. Clear the halls
2. Report to the nearest classroom/office
3. Assist those needing special assistance
4. Ensure classroom/office doors are closed and locked
5. Turn off lights
6. Stay away from doors and windows (out of the line of sight)
7. BE QUIET and follow instructor's directions
8. Silence cell phones
9. Wait for the "All Clear" before leaving
