Course Focus

Philosophy is reflection on our fundamental beliefs about the world, about our values and about ourselves. Philosophers ask questions such as, "What is truth?", "What is justice?", "What is the meaning of life?", "What is a person?", "Are people free?" etc. These questions are of concern to everyone and each one of you has probably thought about one or more of them at some point in life – some of you have been prompted to do so by a powerful life experience such as the death of a loved one, others by a thoughtful book they have read or a movie they have seen, still others by a conversation with a close friend.

Core Curriculum Competencies

All courses approved for the general education core curriculum helps students develop critical thinking and/or communication skills.

- This course develops critical thinking skills for students through weekly short answer essays, which require them to evaluate philosophical questions and consider how these various philosophic positions connect with their personal convictions or society's moral standards. Students are provided with extra reading materials on the topic and are encouraged to seek out other material to support their arguments.
- This course develops written communication skills through their weekly short answer essays as well as through their participation in class discussions, which enable them to further assess philosophical issues and their application to the real world.

- Under extenuating circumstances and at the discretion of the faculty member teaching the class, allow the student to continue in the class and make-up the work. This exception must be documented at the time the allowed absences are exceeded.
- Absences are counted from the first day of class. There are no "excused" absences. All absences are counted, regardless of the reason for the absence.

ONLINE ATTENDANCE PROCEDURE

For all online courses, students must complete an assignment designated by the instructor during the first week of classes. The instructor will drop the student from the course if the initial assignment is not completed.

Instructors will withdraw students from the class when 90% attendance is not maintained. Attendance in an online course is defined by regular course access and by timely completion of assignments as required by the instructor. Each student will be expected to access the web class at least once a week and complete 90% of assignments on time. Additional access is encouraged and may be necessary for successful completion of classes.

Failure to log in and complete assignments will result in the student being withdrawn from the course. The instructor will assign a grade of "W," "WP," or "WF" based upon the student's academic standing as the last date of attendance, which is the last login. Students are responsible for any financial matters associated with an administrative withdrawal. If a student fails to email the instructor (using the my.tcl.edu email account) requesting to be dropped from the course and has not submitted the initial assignment required during the first week of class, the instructor will assign a "Never Attended" code in the student information system (web-advisor) no later than ten calendar days after the first day of the class. Students who are dropped as a result of never attending the course are still responsible for all fees associated with the course.
