

Computer Technology

High-tech skills for a high-paying career.

TCL's Computer Technology programs prepare you for a variety of entry-level positions in information technology (IT). With experience, graduates can advance into systems analysis and design, database administration, software development and network administration.

“The staff in the Computer Technology program at TCL were amazing. Going back to school at TCL was one of the best life choices I could have made!”

ROBERT GECY
TCL Graduate
